

**QUALITY SERVICE.
LOW CLAIMS.
RIGHT ON TIME.**

Keeping HVAC projects moving from manufacturing to installation.

HVAC equipment, components, parts and technology need to arrive where they are needed, right when they are needed — and intact. Averitt combines quality transportation with disciplined freight-handling processes designed to reduce damage and keep projects on schedule from manufacturing and distribution through installation and service.

What We Offer for HVAC:

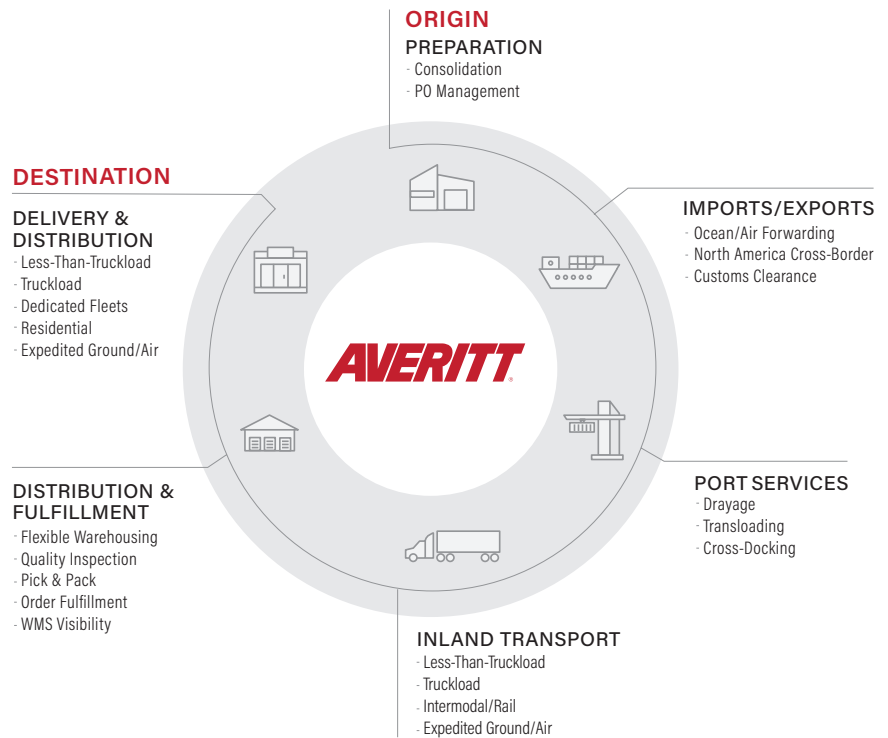

- Low-claims transportation for HVAC equipment, components, parts and related technology
- Expedited and guaranteed options for time-sensitive shipments
- Flatbed, step-deck, and specialized capacity for oversized freight
- Flexible delivery options for distributors, contractors, active construction sites and service locations
- Warehousing, staging, and distribution support

Network Snapshot:

-  Asset-based LTL, truckload, dedicated, and drayage fleets
-  Over 3.3 million sq. ft. of warehousing and distribution space
-  24/7 customer support through our centralized National Call Center

SUPPORTING YOUR FREIGHT FROM ORIGIN TO DESTINATION

Whether You Need A
Single Service Or
End-To-End Support,
Averitt Connects Every
Link In Your Supply Chain.

HVAC supply chains often require more than transportation alone. Averitt brings transportation, warehousing, distribution, expedited service, port capabilities and final mile together through a single transportation and logistics provider. From inbound materials and inventory staging to time-critical delivery, Averitt connects the services needed to keep HVAC supply chains moving.

THE POWER OF ONE

Inventory & Distribution Support

- Receiving and quality checks
- Inventory visibility
- Secure storage and staging
- Pick, pack, and order fulfillment

Transportation & Delivery

- LTL and full truckload transportation
- Dedicated fleet solutions
- Specialized equipment for large HVAC equipment
- Expedited ground and air for time-critical shipments
- Job-site and residential delivery

Averitt simplifies logistics through a single point of contact and coordinated execution—so complex freight stays on schedule and under control. **One Partner. Endless Possibilities. That's The Power of One.**
