

AVERITT

SOLAR
INDUSTRY EXPERTISE

**YOUR
SINGLE-SOURCE
SOLAR SOLUTION**

Solar logistics built for complex delivery needs.

From international shipping to final site delivery, solar supply chains require careful coordination at every step. Averitt helps simplify the process with reliable transportation and distribution services designed to keep your projects moving.

What We Offer for Solar Energy:

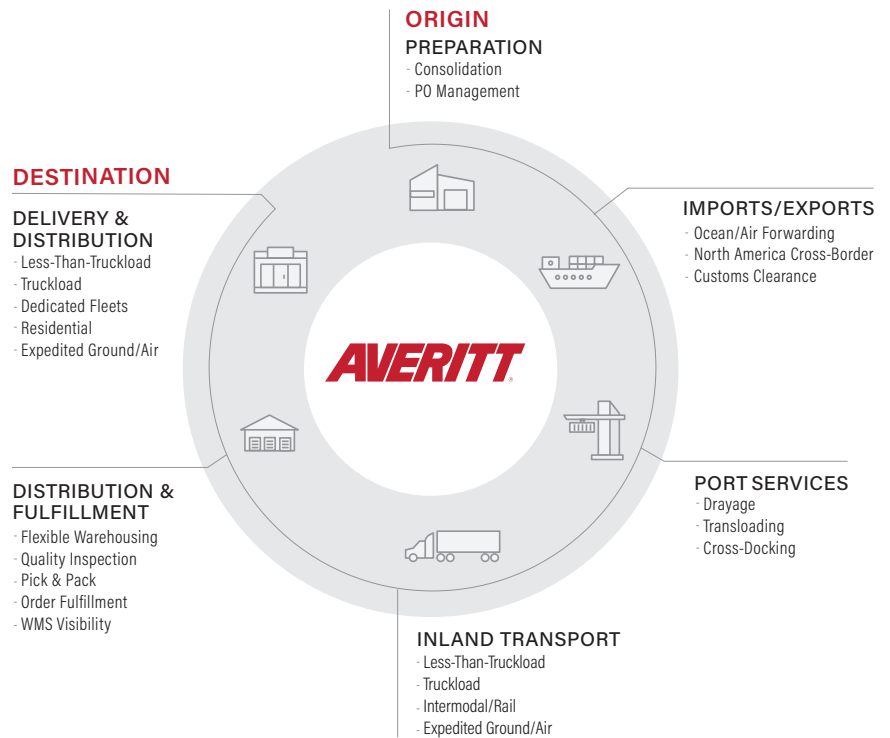

- Flatbed and specialized capacity for solar components
- Installation and construction site delivery
- Port drayage, transloading, and cross-docking
- Warehousing, distribution, and inventory support
- International ocean and air forwarding

Network Snapshot:

-  Asset-based LTL, truckload, dedicated, and drayage fleets
-  Over 3 million sq. ft. of warehousing and distribution space
-  24/7 customer service through Averitt's centralized National Call Center

SUPPORTING SOLAR PROJECTS FROM ORIGIN TO INSTALLATION SITE

Whether You Need A
Single Shipment or Full
Project Rollout, Averitt
Connects Every Link In
Your Supply Chain.

Supporting solar energy projects across the U.S. and beyond, Averitt delivers reliable logistics for panel, component, and equipment shipments. From origin to installation site, we help keep your supply chain moving with consistent performance and simplified coordination.

THE POWER OF ONE

Inventory & Distribution Support

- Warehousing with quality inspection and storage
- Pick, pack, labeling, and order fulfillment
- Inventory visibility through WMS-enabled facilities
- Consolidation and PO management support

Transportation & Delivery

- LTL, truckload, and flatbed service
- Drayage, rail, and inland transportation
- Coordinated delivery to installation sites
- Expedited options for time-sensitive shipments

Averitt connects each stage of your supply chain—from international shipping to final delivery—helping reduce handoffs and keep projects on track. **One Partner. Endless Possibilities. That's The Power of One.**
